Who We Are

The American Society of Interior Designers (ASID) advances the interior design profession and communicates the impact of design on the human experience.

The ASID NY Metro Chapter elevates the interior design community to positively impact all. We highlight the valuable contributions interior designers offer to society.

- Our chapter's focus involves educating and empowering our interior design community to excel in dynamic ways.
- We seek to nurture our community and foster industry relationships that are career-long.
- We guide interior designers in discussions about important topics, such as small-business solutions, growing a firm, technology, marketing & PR, as well as evidence-based and human-centered design, social responsibility, well-being, sustainability, and design equity.
- Collaborations and partnerships with brands, firms, and practices are sought to promote the value of interior design and strengthen the ties within the NY Design Community and beyond.

ASID NY Metro offers tailored career-stage programs, ranging from educational events to tours, and networking opportunities to exclusive curated trips to engage members effectively.
